FOR IMMEDIATE RELEASE

NIRvana Sciences Becomes Semi-Finalist in Technology Showcase at CYTO 2022

RESEARCH TRIANGLE PARK, NC, May 4, 2022 – NIRvana Sciences, Inc., the leading developer of synthetic bacteriochlorins and chlorins, today announced that it has become a Semi-Finalist in the International Society for Advancement of Cytometry's (ISAC) CYTO 2022 Technology Showcase being held in Philadelphia, PA USA.

"NIRvana Sciences is happy to make the semi-finals of the CYTO 2022 Technology Showcase and hope that it continues to build awareness of our technology platforms as we drive strategic partnerships for their commercialization into global markets. This year, there are many interesting technologies being showcased confirming the important and dynamic growth of the field of cytometry" states CEO Russell Thomas.

About NIRvana Sciences

NIRvana Sciences is a spin-out from North Carolina State University with a mission to commercialize red and near-infrared fluorescent dyes and associated probes and beads with narrow spectral properties for use in life science applications. In addition to support from NIH, NIRvana has also received support from angel investors in North and South Carolina, North Carolina Biotechnology Center (NCBC), NC IDEA and Blackstone Entrepreneurs Network. NIRvana facility is located at Alexandria Innovation Center in Research Triangle Park, NC USA.

About International Society for Advancement of Cytometry (ISAC)

ISAC's mission is to serve a multidisciplinary community by leading technological innovation, scholarship, and the exchange of knowledge in the quantitative cell sciences. CYTO 2022 is being held in Philadelphia, Pennsylvania from June 3-7 during which several thousand attendees from around the world will participate.
